

Singota Solutions Announces -40 °C Pallet Storage Offering In EU

Bloomington, IN - [August 2024] - [Singota Solutions](#), a leading Contract Development and Manufacturing Organization (CDMO), is proud to announce the expansion of its service offerings by adding a new -40 °C and -20 °C state-of-the-art pallet storage facility located just outside of Milan, Italy. This strategic expansion is part of Singota's ongoing commitment to providing unparalleled logistics and 3PL solutions to its clients globally.

Enhancing Our European Presence

In addition to Singota's existing presence in Switzerland, this new facility in the town of Rovello Porro, Italy significantly enhances Singota's European network of depots, providing clients with a strategic location within a free-trade zone. This new site, inspected by the Agenzia di Tutela della Salute (ATS) on behalf of the Italian Ministry of Health, conforms to EU Good Distribution Practice (GDP) standards to ensure top-tier quality and compliance for all operations. The facility's accreditation underscores Singota's dedication to meeting the stringent regulatory requirements necessary for the safe and efficient handling of pharmaceutical products.

Advanced Storage Capabilities

One of the standout features of the Rovello Porro facility is its extensive range of temperature-controlled storage options, designed to meet the diverse needs of modern pharmaceutical products:

- Room Temperature Storage (15-25°C)
- Cold Storage (2-8°C)
- Frozen Storage (-20°C)
- Low Temperature Storage (-40°C)

The -40°C pallet storage capability is particularly noteworthy. This specialized storage solution is essential for many new biologic products that require low temperatures to maintain their stability and efficacy. The addition of this capability sets Singota apart from many other facilities, providing clients with this rare and highly sought-after service.

Strategic Benefits

Located within the European Union, the Rovello Porro, Italy facility offers significant strategic advantages for Singota's clients.

Many regulatory requirements necessitate an EU presence, and this new location ensures that Singota can satisfy these needs. The bonded, free-trade zone status of the facility further enhances its appeal, offering clients streamlined logistics and reduced customs complexities.

Client-Centric Expansion

“At Singota Solutions, our primary goal is to support our clients through every phase of the drug development pipeline,” said Travis Hudson, Senior Manager, Supply Chain Operations] at Singota Solutions. “The expansion into Rovello Porro is a testament to our commitment to providing flexible, tailored solutions that meet the unique needs of our clients. With this new facility, we are not only expanding our geographical reach but also enhancing our service offerings to include cutting-edge storage capabilities that are crucial for the next generation of biologic products.”

About Singota Solutions

Singota Solutions is a CDMO dedicated to overcoming obstacles in the drug development pipeline. Specializing in small-batch aseptic filling, aseptic manufacturing solutions, and injectable formulation development, Singota offers comprehensive services designed to expedite the progression of clients' products toward clinical trials. Our GMP-compliant warehousing and 3PL operations ensure the integrity and safety of pharmaceutical products, including those requiring cold-chain pharmaceutical storage.

Singota Solutions provides focused and efficient services without compromising on quality. Our expansion of supply chain operations in Italy, marks a significant milestone in our mission to deliver unparalleled support to our clients, helping them navigate the complex pharmaceutical landscape with confidence and precision.
