

# INDIANA PHARMACEUTICAL COMPANIES: WHERE INNOVATION MEETS COMMUNITY

By: Sitav Eluran,  
Singota Solutions

*Singota® Solutions is a CDMO located in Bloomington, Indiana, USA that specializes in Parenteral, Early Phase Drug Development and Aseptic Filling projects.*

When you think of pharmaceutical hubs, your mind might jump to Boston, San Diego, or the Research Triangle in North Carolina. But here's something you might not expect – Indiana's pharmaceutical companies are making waves in the industry. From cutting-edge drug development to aseptic manufacturing, Indiana has quietly built a powerhouse life sciences sector that punches well above its weight class.

At the heart of this growing industry is Singota Solutions, a CDMO (Contract Development and Manufacturing Organization) based in Bloomington, Indiana. Don't be fooled by the Midwestern address. Singota operates on a global scale, with 3 European facilities in Switzerland and Italy supporting clients across the world. What makes Indiana such a thriving location for pharmaceutical innovation? Why should drug developers (whether based in the Midwest or beyond) pay attention to what's happening here?

## Indiana: More Than Just the Crossroads of America

Indiana has long been known for its manufacturing strength. In recent years, Indiana has become an unexpected force in the pharmaceutical and biotech sectors. Home to global industry leaders and an ever-expanding network of CDMOs, biotechs, and research institutions, Indiana offers a unique combination of affordability, talent, and innovation-friendly policies.

Here's why Indiana pharmaceutical companies have an edge:

- **World-Class Talent:** With renowned institutions like Purdue University, Indiana University, and the University of Notre Dame, the state produces top-tier scientists, researchers, and engineers ready to advance the next generation of pharmaceutical breakthroughs.
- **A Thriving Life Sciences Ecosystem:** Indiana ranks among the top states for life sciences jobs, with more than 2,100 companies contributing to its growing biotech sector (click [HERE](#) to see our current job postings).
- **Strategic Supply Chain & Logistics:** Indiana's central location and extensive transportation infrastructure make it a prime hub for pharmaceutical storage and distribution. This serves as a critical advantage in a world where cold chain logistics and on-time delivery are non-negotiable.

## Indiana Pharmaceutical Companies Are Booming - Here's Why Singota Leads the Pack

While Indiana is home to many impressive pharmaceutical organizations, Singota Solutions stands out for its specialized focus on early-phase injectable drug development. Singota tailors its services to biotech startups and emerging pharma companies, providing the flexibility, speed, and white-glove service needed to advance products from preclinical to Phase 1 trials and beyond, without getting lost in the shuffle.

Here's what makes Singota Solutions unique:

- **Injectables Expertise:** Singota focuses on injectable product development and fill/finish. We deliver best-in-class formulation development, process development, analytical testing, and aseptic manufacturing. Injectables aren't just what we do, they're our bread, butter, and secret sauce. If it goes in a vial, syringe, or cartridge consider us the geniuses.
- **Small-Batch & Early-Phase Savvy:** Singota excels in supporting small, growing biotechs, providing the hands-on support and scientific expertise that early-stage drug developers need, with the flexibility and communication that they love.
- **Global Reach with a Midwest Base:** While proudly headquartered in Indiana, Singota operates internationally, offering advanced cold storage and supply chain capabilities at 3 sites in Switzerland and Italy to support clients worldwide.

- A True Community Partner: Singota isn't just an industry leader, we are a pillar of the Bloomington community. From providing local job opportunities to contributing to STEM education and workforce development, Singota is deeply invested in the region's economic and scientific growth.
- Accessible and Employee-Focused: With Bloomington Transit's new Route 13 running right by Singota, access to job opportunities just got even easier. Singota is committed to employee well-being and career growth. We are proud to make a positive impact on the local community and the global pharmaceutical industry.

### Indiana Strong, but Globally Connected

Indiana pharmaceutical companies may not always be in the headlines, but their impact is undeniable. At Singota Solutions, we're leading the charge by helping biopharma innovators move their groundbreaking injectable therapies to market faster.

Whether you're an Indiana-based company looking for a trusted CDMO partner close to home, or a global biotech in need of a flexible, specialized CDMO with European reach, Singota is here to help.
